

Partner VersoriumIQ

Randy has over 40 years of experience in supply chain leadership, strategic consulting, and operations. This experience includes executive leadership, supply chain solutions design and implementation, global freight forwarding, global B2C operations, sales and operations planning, network optimization, manufacturing operations and global humanitarian aid supply chain operations.

Prior to co-founding VersoriumIQ, Randy was Chief Operating Officer at MedShare International, a non-profit global humanitarian aid organization. MedShare collected unused medical supplies and equipment and redistributed them to communities in need throughout the world.

Randy worked at United Parcel Service as VP of Global Program Management where he led a global team of 250 professionals who worked with all UPS business units to ensure UPS services were being effectively delivered as promised. Randy also served UPS as VP of Customer Solutions supporting UPS' largest retail customers, and of as VP Global B2C Operations where he led the acquisition and integration of a new business unit which provides an international B2C delivery solution for retailers.
